SECURITY CENTER

1. **SECURITY EVENTS TAB -** Displays a filterable log of security events, including login attempts, logouts, and suspicious activity, with time, IP, user, severity, and threat level.
2. **ADMIN ACTIVITY TAB -** Displays a filterable log of admin login/logout activity, including time, admin account, IP address, browser/OS, and session duration.
3. **STAFF ACTIVITY TAB -** Displays a summary and log of staff login sessions and system actions performed.
4. **SUMMARY CARDS -** Displays total events, suspicious events, rate limit hits, and blocked IPs.
5. **BLOCKED IPs** - Displays currently blocked IP addresses, if any.
6. **BLOCK AN IP** - Enter an IP address, reason, and duration, then click "Block IP Address" to restrict access.
